## Mitzvah/Tikkun Olam Project Guide

**“A mitzvah occurs when, by acting on our Jewish values, something good happens for ourselves or others.”**

Mitzvah Cards by Rabbi Goldie Milgram, copyright 2002

A wonderful quote from Rabbi Milgram to introduce the concept of “Mitzvah Projects”. Ideally, however, a Mitzvah/Tikkun Olam project when carefully planned and executed, will provide something good to happen for both the giver and the recipient.

Congregation Agudas Achim requires all students to participate in a Mitzvah Project during their Bar/Bat Mitzvah preparations. We STRONGLY suggest that these projects at least begin (we won't say one should stop doing a mitzvah ☺) in 6th grade before regular meetings with the tutor, sponsor and rabbis become more regular occurrences on the student's schedule. These projects are intended to provide an opportunity for each student to experience the importance of doing a mitzvah “ben adam l'chavayroh”, that is, a sacred obligation between one person and another. There are two key guidelines to structure the planning of your mitzvah project:

- 1) Projects should involve some direct connection with an organization or other beneficiary, beyond simply collecting and donating, although this may certainly be one aspect of the project. Although animals may be a part of the project, working directly with people in some way must also be a component.
- 2) Although there is no required number of hours that one must dedicate to the project, the expectation is that this is an opportunity to engage with a particular part of our world that needs repair in a deep way. Therefore, we ask that the project be something with which the Bar/Bat Mitzvah is engaged for at least 6 months.

These requirements show the importance of these mitzvot to Judaism. Such projects can also offer an important opportunity for families to work together, creating a meaningful experience while serving the community.

Please note that although CAA does not generally publicize mitzvah projects in the congregational emails or bulletin, information may be distributed through CAARS.

## How to choose a Mitzvah/Tikkun Olam Project and some examples

Fill out the 6 Questions to Ask Yourself to Find Your Personal Mitzvah Project form handed out at the Mitzvah Project meeting. This will allow the family to determine not only the child's interests and strengths in terms of what they can contribute to the world, but also the particular social issue that they would like to address. Please submit this and be ready to present on \_\_\_\_\_.

**Example #1:** if your child likes to cook and is troubled by the number of homeless people they've seen begging in Austin, Agudas Achim has been partnering with University Baptist Church downtown in their efforts to feed and clothe the poor. As part of Micah 6, a food pantry is open two days a week. Their "God's Family Dinner" on Thursday nights provides a hot meal for anyone who walks in the door, from the working poor to the homeless. There is also a clothing closet to provide clean, used clothing for the needy.

To support the food pantry, a neighborhood food collection drive where a child can distribute grocery bags with a message attached telling about the food drive, collecting the food, then personally delivering it and working in the food pantry the day their collected items are distributed. A child learns to communicate the need to the neighborhood, use his/her personal time and efforts to collect and deliver, and then gets the personal experience of seeing the result of their hard work.

Likewise, working on one of the two Thursday nights each month that Agudas volunteers help with God's Family Dinner. If it's during the summer, the child could actually go in the kitchen and help cook the meal that will be served that evening. During the school year, shifts are from 4:30 until 6, when there are opportunities to serve, bus tables, and wash dishes. If the child is interested, there is a member of the congregation that can introduce them to a few of the people to put a face on the problem.

**Example #2:** If your child is a nature buff, perhaps a project linked to saving the environment, preserving an endangered species, or perhaps organizing and executing a project to clean up the banks of Shoal Creek several times a year with friends would be a good project.

**Example #3:** Is there something that has touched your family that may be suitable? For instance, if a relative or friend has had a serious disease such as cancer. To plan a project that supports a cure, a treatment phase, or even Hospice for caring in the final stages if the illness was terminal and Hospice was used. Perhaps sewing or purchasing caps for chemo patients and helping distribute them to patient. Maybe soliciting caps signed by celebrities and having an auction whose proceeds are donated? Taking Hospice training and learning how to be a support person for someone terminally ill.

## 6 Questions to Ask Yourself To Find Your Personal Mitzvah Project

"You must be the change you wish to see in the world." Mahatma Ghandi

An opportunity, once again, to teach our children what is even more important than the tastiest caterer, the most eloquent dvar torah, and the most beautiful floral arrangements. That becoming a bat/bar mitzvah is to become a blessing, not only within one's family, but for all.

1. What am I *really* good at? (Or what are you *really* bad at but might try if you knew it was a way to make a certain mitzvah happen?)

2. What do I *really* like to do?

3. What bothers me so much about what is wrong in the world that I get angry, *really* angry and want to do something about it?

4. What can I do *right now*, today, in the next week, in the period leading up to my Bar/Bat Mitzvah to make a difference?

5. Whom do I know?

6. Why not?!

# Mitzvah Project Ideas

On the following pages we have listed some ideas from organizations that could really use your help. We hope that this will help you get started on your Mitzvah Project. Most have website addresses as well as contact information to give you more information.

The ideas and organizations listed here are only suggestions. If you have other ideas, we would love to include them for next year's B'nai Mitzvah students; please share these with Rabbi Swedroe. Once you know what you might like to do, it is important to make sure your project is manageable, making sure you have the time, resources, effort, and commitment available to making your mitzvah project work. Talk with your parents, Rabbi Swedroe, Dr. Raben, and your teachers to see if your mitzvah project idea can be completed.

Helping others is a great feeling and an important Jewish value. We hope that some of these suggestions will start you on your way to finding the perfect Mitzvah Project that's right for you.
